PORT OF ANTWERP

OPERATIONAL NEWSFLASH

INLAND NAVIGATION

Dear,

with 47.500 calls a year the barge sector plays a key role in the Port of Antwerp's day-to-day economic activity.

Since you are active in inland navigation, we would like to keep you updated with operational information relevant to you (waste centers, new registration systems, procedures, nautical matters, etc.).

To do this we need to update and complete your details. This will allow us to keep you informed through mailings (about 5 a year) with relevant news about inland navigation in the Port of Antwerp.

Kind regards,

Pascale Pasmans
Head Intermodality & Hinterland
Antwerp Port Authority
